PROFILE

Motivated Full Stack Web Developer with a solid foundation in both front-end and back-end technologies, specializing in the MERN stack. Proficient in building visually appealing, functional, and responsive websites through individual and team-based projects. Detail-oriented, responsible, and skilled in problem-solving and effective communication. Eager to bring innovative solutions and grow professionally as a full-stack developer, while applying my skills and passion to real-world challenges.

PROJECTS

- shopbay |
HTML | CSS | JavaScript | ReactJs | JSON
 - ShopBay is a modern e-commerce platform built with React and Vite. It offers a sleek, responsive user interface for browsing products, adding items to the cart, and completing purchases.
 - Built a responsive, user-friendly interface with HTML5, CSS3, React, Vite, JSON and JavaScript.
- Myntra |
HTML | CSS | JavaScript | JSON
 - This project is a clone of the popular e-commerce platform Myntra, built using HTML, CSS, and JavaScript. It simulates real-world shopping experiences, featuring a product catalog, product detail pages, user authentication (login and signup), and a shopping cart. Product data is stored in a JSON file, and users can browse, filter, and add products to their cart.
- React Paint App |
HTML | CSS | JavaScript | ReactJs | Canvas API
 - Paint App is a simple, responsive drawing application built with React and JavaScript. Users can choose brush sizes, colors, and create digital art in real-time. The app allows users to save their creations and offers an intuitive, smooth drawing experience.
